# WHAT PEOPLE ARE SAYING

**BOYS & GIRLS CLUBS  
OF LONG BEACH**

**Chief Executive Officer of Boys & Girls Clubs of Long Beach, Don Rodriguez**

There are so many auto career opportunities in Long Beach, from the trucks at the Port of Long Beach, to the car dealers and mechanics around the area, that will become available to our Club members thanks to programs like the one GLANCD A is supporting. This funding will help start our youth on the best path to become productive and contributing citizens of our community."

**Long Beach Community College District Interim Superintendent-President Dr. Mike Muñoz**

"This gift will go directly to benefit our Automotive Technology program and students. It's not uncommon to hear about faculty paying out of their own pocket to provide tools for our students once they graduate the program to ensure that they are successful. Now we have a way to help our alumni once they enter the automotive industry."

**Professors Alex Villalta, Tom Fortune, Michael Vandyke and David Chhith, students, and staff**

"We are extensively thankful not just for your generous donations, but also for the ongoing relationship with our staff and students. This steady network has opened many doors for our students such as job interviews, job shadowing, and exposure to great opportunities our automotive industry has to offer. GLANCD A has placed a vast variety of our students in automotive positions that have evolved into robust and lucrative careers."

**Life Steps Foundation Program Coordinator, Bob Turner**

"GLANCD A's support allows us to enhance client services through special projects which improve the quality of life for our clients with developmental disabilities. Partnerships like this truly make a difference in the lives of our clients, and we are extremely grateful."
